### **Student Paper / Student Design Competition**

The CSWEA student paper is from Wisconsin. Lindsey Bergsven, UW- Madison will be representing CSWEA at WEFTEC in San Diego this October. Lindsey will be presenting her paper, “Solving the Problem of Specificity in Fluorescence In Situ Hybridization” on Thursday afternoon, May 24 as part of the Technical Program. She will present at 1:45 p.m. in Hall of Ideas G.

Lindsey has been invited and plans to attend the Association Luncheon on Thursday where she will be introduced and recognized as the CSWEA representative to WEFTEC.

The CSWEA Student Design team is from the University of Illinois. Their design project is titled; “An Innovative System for Bioremediation”. Presenting will be Paul Davidson, Brandon Kocher, Andrew Lenkaitis, and Amanda Olsen/ University of Illinois. They will be presenting on Thursday afternoon at 3:00 p.m. in Hall of Ideas G. They plan to attend the Association Luncheon. They will represent CSWEA at WEFTEC this October in San Diego.

The State Sections will be covering the cost of participating at the Annual Meeting in Madison. CSWEA is providing complimentary one day registration for Thursday.

CSWEA will be covering the cost for participation at WEFTEC in San Diego.

### **Young Professionals**

An Ice Breaker for Young Professionals is scheduled for 5:30 p.m. on Tuesday just prior to the Meet & Greet. This is a time for them to meet the Executive Committee and be welcomed into CSWEA. Please plan to attend.

Young Professionals and Students will also be serving as Assistant Moderators for the Technical program. Just another small way to get them integrated into the organization.
