To: CSWEA Executive Committee
From: Jay Kemp, Education Seminar Committee Chair
RE: Education Seminar Committee Report
Date: October 5, 2007

Planning is nearly complete for the 13th Annual Education Seminar featuring a program emphasizing the activated sludge process. The program sub-committee led by Beth Vogt is assembling another fine group of speakers including the venerable Dr. Wes Eckenfelder and Dr. Michael Stenstrom an aeration expert and long-time colleague of Dr. Boyle who comes to Madison all the way from UCLA.

The seminar will be held again at the Monona Terrace in Madison, WI on April 1, 2008 (no foolin'). The draft program for the seminar is shown below:

2008 CSWEA Education Seminar April 1, 2008, Madison, Wisconsin

Activated Sludge Now – It's About Efficiency and Optimization
Sponsored by Central States Water Environment Association

Program/Speaker Status

- | | |
|----------------|---|
| 8:00 – 8:10 am | Introduction and Welcome |
| 8:10 – 8:50 am | 1. Overview/History of Activated Sludge, Wes Eckenfelder, independent consultant, Nashville |
| 8:50 – 9:35 | 2. Aeration System Efficiency, Dr. Michael Stenstrom, UCLA |
| 9:35 – 10:20 | 3. Activated Sludge Clarifier Optimization and Design, David Kinnear, HDR |
| 10:20 – 10:45 | Break |
| 10:45 – 11:20 | 4. Continuous Flow SBR Controls, Terry Reid, Aqua Aerobic |
| 11:20 – 12:00 | 5. Morning panel (Morning speakers answer questions collected from the audience) |
| 12:00 – 1:00 | Lunch |
| 1:00 – 1:40 | 6. D.O. Control, Dr. Michael Stenstrom, UCLA |
| 1:40 – 2:25 | 7. MBRs, Mark Lang, URS |
| 2:25 – 2:50 | Break |
| 2:50 – 3:30 | 8. Membrane Case Study for Traverse City, Scott Blair, contract operator for Traverse City |
| | Potential Speakers |
| 3:30 – 4:05 | 9. ABS Blower Project @ City of DePere, Dean Zanon of Robert E Lee & City of DePere OR |
| | 10. John Siczka, CH2MHill, HRT Testing @ MMSD |
