### **Student Paper / Student Design Competition - 2007**

The Student Paper for WEFTEC is being presented in the Poster Session on Monday October 15 by Lindsey Bergsven, formerly from UW- Madison. Lindsey will be presenting her paper through the poster session, "Solving the Problem of Specificity in Fluorescence In Situ Hybridization".

The CSWEA Student Design team is from the University of Illinois. Their design project is titled; "An Innovative System for Bioremediation". Presenting will be Paul Davidson, Brandon Kocher, Andrew Lenkaitis, and Amanda Olsen/ University of Illinois. They will be presenting on Sunday afternoon, October 14.

CSWEA is covering the cost for participation at WEFTEC in San Diego for both the Student paper and Student Design teams.

### **Student Paper / Student Design Competition - 2008**

I will be updating the Student Paper and Student Design information for 2008 and getting it out to all the CSWEA Student Chapters and participating Universities so that they can consider and plan for participation in the 2008 program.
