To: CSWEA Executive Committee  
From: Kris Evans, Young Professionals Chair  
RE: Young professionals' activities  
Date: October 4, 2007

Most of my activity in the last few months has been working with WEF's S&YP committee to launch their liaison program. Liaisons will act as an intermediary between the MAs, student chapters, YP groups, and WEF. They will also help direct new members to the appropriate MA groups and help student chapters get off the ground if needed. I have been appointed as liaison for CSWEA. Expect more information after WEFTEC.

There were several YP articles published in the latest CS Water magazine. Rachel reported the Wisconsin group had a successful summer with a well attended baseball game. The Student Paper competition winner was recognized and I provided an article on what is a YP and how to get involved. I would like to continue having at least one article in every Water magazine written by a YP.

Finally, I have been working with Dennis, Eric, Rachel and Rich to establish a new CSWEA award recognizing an Outstanding YP of the Year. Eric found a similar award from WEF and we recommend CSWEA use the same criteria and nomination process.
