CSWEA is comprised of resource recovery professionals including facility operators and managers, consulting engineers, regulators, and educators from Wisconsin, Minnesota, and Illinois. Monona Terrace is an excellent venue and we have organized an exceptional technical program to accompany our exhibits. The CSWEA Annual Meeting provides a great opportunity for your organization to market your products and services to decision makers involved in all facets of the water pollution control field.

Reservations are now being accepted for vendor exhibition. **Each booth will include one pass for each exhibitor.** You will have the option to purchase up to three additional passes. If you plan on having more than one person at your booth, please purchase extra passes. If you register by February 15, 2019, you will have a listing in the *Central States Water* magazine showing the location of your booth on the exhibition floor, your name will also be listed on the sponsors' page in the magazine, and there will be sponsor poster boards placed at key locations during the conference. **Please note the registration deadline of February 15, 2019, to have your company listed in the *Central States Water* magazine.**

The exhibits will be open two days: Wednesday and Thursday, May 15 and 16. **The conference is being arranged to provide longer breaks during the technical sessions with refreshments served only in the exhibit hall. We will continue the incentive pricing structure, which will bring more utility members and new attendees to the conference.**

There are also **sponsorship** options for your company. There will be sponsors for the golf outing, 5K walk/run, various event sponsorship (Meet & Greet/Social, etc.) and conference sponsorship. CSWEA is a 100% independently funded non-profit group.

Our success comes from supporters like you.

CSWEA is a non-profit professional member association and a 501(c)(3) organization.

All our funding is exclusively sourced through membership dues, event participation, sponsorships, and advertising revenue. We are grateful for each and every commitment you can make. Thank you.

GLOBAL WATER STEWARDSHIP (GWS) IS AN ORGANIZATION FORMED BY CSWEA THAT RESOLVES SANITATION ISSUES IN THE DEVELOPING WORLD BY EDUCATING PEOPLE AND ENGINEERING SUSTAINABLE CENTRALIZED SOLUTIONS THAT KEEP WATERWAYS CLEAN AND COMMUNITIES HEALTHY.

We use the CSWEA and WEF university student design competitions for the concept designs and then work with local engineers in the host country to finalize the design and implement the solution. Through this process we educate individuals on how to design, implement, operate, and maintain centralized wastewater collection and treatment systems. We also develop user fee structures for the ongoing operations and maintenance costs and work with community outreach individuals to get community buy in.

OUR HELPING HANDS: GWS has made numerous valuable contacts in both Costa Rica and the United States that have made it possible for GWS to connect with locals in project communities and gather information to begin each unique design process. Without the contributions of these organizations, GWS would not be where it is today.
