SPONSOR PROGRAMS
DEAR EXHIBITOR:

The Central States Water Environment Association (CSWEA) will be holding its 93rd Annual Meeting at Saint Paul RiverCentre on August 18-20, 2020. CSWEA is comprised of resource recovery professionals including facility operators and managers, consulting engineers, regulators, and educators from Wisconsin, Minnesota, and Illinois. RiverCentre is an excellent venue and we have organized an exceptional technical program to accompany our exhibits. The CSWEA Annual Meeting provides a great opportunity for your organization to market your products and services to decision makers involved in all facets of the water pollution control field.

Reservations are now being accepted for vendor exhibition. Each booth will include one pass for each exhibitor. You will have the option to purchase up to three additional passes. If you plan on having more than one person at your booth, please purchase extra passes. If you register by February 14, 2020, you will have a listing in the Central States Water magazine showing the location of your booth on the exhibition floor, your name will also be listed on the sponsors’ page in the magazine, and there will be sponsor poster boards placed at key locations during the conference. Please note the registration deadline of February 14, 2020, to have your company listed in the Central States Water magazine.

The exhibits will be open two days: Wednesday and Thursday, August 19 and 20. The conference is being arranged to provide breaks during the technical sessions with refreshments served only in the exhibit hall. We will continue the incentive pricing structure, which will bring more utility members and new attendees to the conference.

There are also sponsorship options for your company. There will be sponsors for the golf outing, 5K walk/run, various event sponsorship (Meet & Greet/Social, etc.) and conference sponsorship. We want to thank you in advance for exhibiting and look forward to seeing you at the conference. Please do not hesitate to contact Tim Wedin or Kyle Fritze as listed below.

Currently, over 35% of the earth’s population lacks access to proper sanitation. That’s more than 1 in 3 people.

This leads to billions of gallons of untreated wastewater being discharged directly to rivers, ponds, and streams – leading to both disease and environmental degradation.

**GLOBAL WATER STEWARDSHIP (GWS) IS AN ORGANIZATION FORMED BY CSWEA THAT RESOLVES SANITATION ISSUES IN THE DEVELOPING WORLD BY EDUCATING PEOPLE AND ENGINEERING SUSTAINABLE CENTRALIZED SOLUTIONS THAT KEEP WATERWAYS CLEAN AND COMMUNITIES HEALTHY.**

We’ve started work in Costa Rica. This nation is developing quickly, and needs to improve their water treatment infrastructure in order to keep up with their economic growth. A large portion of their economy depends on tourism, which is being driven away due to the lack of waste management that leads to disease and odors.

Help us protect Costa Rica’s incredible and abundant biodiversity, improve public health, and develop local economies.

When you invest in us, we invest in the world. For more information, please visit www.globalwaterstewardship.org
