COURSE: HEALTH & SAFETY PRACTICES FOR WASTEWATER SYSTEMS

Staying safe and healthy while on the job is not common sense for all. Creating and maintaining a culture of “safety first” takes a great deal of training, emphasis and reinforcement. This class can be an important part of such a program.

“Safety First” must be more than just a sign on the walls of your plant. Each individual (with your help) has the obligation to return home each day in the same condition (or better) in which they left. Staff must be trained to understand basic safety practices and then to make consistent choices to follow those practices.

Attendance at this course sends the message of how critical the practice of safety is in your plant.

TOPICS COVERED:
- Medical Monitoring
- Incident Investigation
- Hazards
- Personal Protective Equipment
- Confined Space
- Fire Safety / Emergency Action
- Utility Location
- Traffic Safety

IEPA Course # 14287
CEU’s: 4.5
Date: August 14th, 2019
Location: Glenbard Wastewater Authority
945 Bemis Road, Glen Ellyn, IL. 60137  (drive to Bemis dead-end)

Time/Agenda:
- 8:00 am – 8:30 am  Registration
- 8:30 am – 12:00 pm  Class
- 12:00 pm – 1:00 pm  Lunch (provided)
- 1:00 pm – 2:00 pm  Review and Exam
- 2:00 pm – 3:00 pm  Plant Tour

Cost:  $30 per person
