
CENTRAL STATES WATER ENVIRONMENT ASSOCIATION

MINNESOTA - ILLINOIS - WISCONSIN

36TH ANNUAL CONFERENCE ON THE ENVIRONMENT

Tuesday, November 9, 2021

**CALL FOR PRESENTATIONS
DEADLINE EXTENDED**

CONFERENCE WILL NOW BE VIRTUAL

[Call for Presentations - Submit Online](#)

We are excited to announce the 36th annual Conference on the Environment (COE) will be held **virtually** on **Tuesday, November 9, 2021**. We invite you to apply to present at the COE by submitting a presentation summary online by **Friday, September 10th**.

The COE is one of the premier conferences in the Upper Midwest, dealing with today's pertinent environmental issues. The 2021 COE offers concurrent technical sessions of specific topics associated with water, air, and waste management issues. The conference is co-hosted by the Central States Water Environment Association (CSWEA) and the Air and Waste Management Association (AWMA), Upper Midwest Section (UMS). The 2021 technical program will be finalized in September upon review of presentation summaries. General topic areas to consider for your presentation include the following:

WATER

- Water Regulatory Issues (WQS and TMDL updates)
- Resource Recovery
- Nutrient Removal
- Toxics / Emerging Pollutants
- Renewable Energy and Biofuels
- Industrial Treatment, Pretreatment and Pollution Prevention
- Stormwater Management

AIR AND WASTE

- Air and Waste Regulatory Issues
- Material Recovery from Waste Combustor Ash
- Solid Waste Comparative Evaluation
- Air Dispersion Modeling
- Emerging Waste Management Technologies
- Greenhouse Gases
- Testing and Monitoring

GENERAL ENVIRONMENTAL

- Leadership
- Ethics
- Climate Change
- Energy Conservation and Sustainable Design
- Innovative Technologies - Research and Application
- State and Federal Programs - Project Development and Funding
- Historical Overview for Organizations and Facilities
- Environmental Justice

To receive consideration, presentation summaries must be submitted online. **Deadline for submittal is September 10th**. Submissions should include a very brief discussion (less than 500 words) of the proposed topic to present. Presentations will be 25 minutes in length, including time for questions and answers; however, a few double sessions of 50-55 minutes will be available for presenters who have extensive material to cover. No formal paper is required. If this presentation has been previously presented, please provide details on the conference such as its name, date, and location.

Final selection of the presentations will be based on the presentation content and on its fit with other selected presentations to create well-rounded, informative technical sessions. Please do not hesitate to contact [Tony Colombari](#) or [Anna Munson](#) with questions. We appreciate your consideration of this solicitation and look forward to reviewing your presentation summary.
