The Midwest Student Design Competition is intended to promote 'real world and hands on' design experience for students interested in pursuing an education and/or career in water/wastewater engineering and sciences field. This is a unique opportunity for students at the college level to demonstrate their design for a water quality-based project and presenting their project to water industry professionals.

An estimated 60-80 Students attend from throughout the Midwest and Costa Rica!

Here is a list of schools who have previously competed in the MSDC:
