COE 2022 Call for Presentations

We are excited to announce the 37th annual Conference on the Environment (COE) will be held on **Thursday, November 10, 2022**, at the Minneapolis Convention Center. We invite you to apply to present at the COE by submitting a presentation summary online by **Friday, September 16th**.

The 2022 Conference on the Environment offers concurrent technical sessions of specific topics associated with water, air, and waste management issues. The conference is co-hosted by the Central States Water Environment Association (CSWEA) and the Air and Waste Management Association (AWMA), Upper Midwest Section (UMS). The 2022 technical program will be finalized in September upon review of quality presentation summaries and committee input. General topic areas to consider for your presentation include the following.

WATER
- Water Regulatory Issues - New and existing
- Resource Recovery
- Nutrient Removal
- Toxics / Emerging Pollutants
- Renewable Energy and Biofuels
- Industrial Treatment, Pretreatment and Pollution Prevention
- Stormwater Management

AIR AND WASTE
- Air and Waste Regulatory Issues
- Material Recovery from Waste Combustor Ash
- Solid Waste Comparative Evaluation
- Air Dispersion Modeling
- Emerging Waste Management Technologies
- Greenhouse Gases
- Testing and Monitoring

GENERAL ENVIRONMENTAL
- Case studies
- Leadership
- Ethics
- Climate Change
- Energy Conservation and Sustainable Design
- Innovative Technologies - Research and Application
- State and Federal Programs - Project Development and Funding
- Historical Overview for Organizations and Facilities
- Environmental Justice

To receive consideration, presentation summaries must be submitted online. **Deadline for submittal is September 16th.** Submissions should include a very brief discussion (less than 500 words) of the proposed topic to present. Presentations will be 25 minutes in length, including time for questions and answers; however, a few double sessions of 50-55 minutes will be available for presenters who have extensive material to cover. No formal paper is required. If this presentation has been previously

presented, please provide details on the conference such as its name, date, and location.

Final selection of the presentations will be based on the presentation content and on its fit with other selected presentations to create well-rounded, informative technical sessions. Please do not hesitate to contact Emma Larson (emma.larson@ci.stcloud.mn.us) or Kathryn Anderson (kathryn.anderson@stantec.com) with questions. We appreciate your consideration of this solicitation and look forward to reviewing your presentation summary.
