

Viresco Anaerobic Digestion Facility Tour

Thursday October 20th, 2022

465 Western Blvd
Turtle Lake, WI 54889

10:00 – 12:00 Tour & Presentation

12:00 – 1:00 Lunch & Networking

VIRESKO is an engineering and technology company working to solve the planet's waste problem by creating alternate paths and uses for unclaimed energy. Every day, we prove that a sustainable future is already here at our Wisconsin-based Innovation Center, where we create alternate paths and uses for organic waste by reclaiming the carbon abundant in these sources, producing clean, abundant, renewable energy.
