8:10 – 8:15 AM	7S Induction		
8:15 – 8:30 AM	Chapter Project Reports		
8:30 – 9:00 AM	Exhibitor Innovations Presentations		
9:00 – 10:00 AM	KEYNOTE SPEAKER Kit Welchin - Change and Stress and Doing More with Less <i>Kit's presentation shares the three key drivers of change, the mistakes we commonly make, and the strategies for managing the stress caused by change, as well as how to adapt to change and stressful situations. Both personally and professionally, we need skills to face change and benefit from it, rather than be a victim of it. We also need to develop the skills needed to do more with less, as the industry and regulations change and expand. This presentation will help the audience develop the skills needed to work within stressful and often changing situations, such as the ones that often occur for utilities, engineers, vendors, students, and many more. Between changing regulations, public education and interaction, public health priorities, tightening budgets, and other common situations, these skills are vital for success in the water and wastewater industry.</i>		Moderator: Tim Korby
10:00 – 10:15 AM	NETWORKING BREAK Glenn Carlson Hall		
	BREAKOUT SESSIONS Upstairs Suites		
	SESSION A Swisshelm/Whitney Room	SESSION B Wilson Suite	SESSION C Mitchell/Schilplin Room
	Treatment & Operations Processes Moderator: Mark Stone	Water Quality/Instrumentation/Safety Moderator: Fasil Ytbarek	Collection System Moderator: Paul Herubin
