

MVPs of BMPs and a Few Brews too!

Thursday, September 19, 2024, 3:00–5:00 p.m.

Target Field, 1 Twins Way, Minneapolis

Meet at Gate 29, off North 7th Street, between the Twins Team Store and the box office. Several bike racks are located along the stadium on North 7th Street, underneath the Ramp A – Skyway.

Did you know that Target Field Station was built with several features that capture, clean and reuse stormwater runoff? Come enjoy a 45-minute guided walking tour of the sustainable innovations Target Field is using followed by an optional bike ride exploring other stormwater BMPs and landscape designs in Downtown Minneapolis. Some highlights will be:

- **Target Field:** Prepare to learn about the system they use to irrigate their field and wash the stands using recycled rainwater. Also find out how they melt snow without using salt or deicing chemicals in an effort to reduce river pollution.
- **Minneapolis BMPs (Optional):** Enjoy a leisurely bike tour to look at various BMPs in Minneapolis guided by Allison Bell, former Green Infrastructure Coordinator for the City of Minneapolis.

The guided walking tour of Target Field begins at 3:00 p.m., but plan to arrive at 2:45 p.m. Please bring your own bike and helmet if you would like to do the bike tour. **The tour is sponsored by CSWEA.** If you have any questions about the tour, please contact Bridget Osborn at bosborn@hrgreen.com.

For those opting out of the bike tour, we will be gathering at Fulton Taproom immediately after the Target Field tour to enjoy a happy hour and social time.

*The Twins tour is limited to 25 people. Feel free to join us at Fulton afterward. This event and tour will happen rain or shine, so please dress for the weather.

This event is sponsored by the Minnesota Stormwater Committee of the Central States Water Environment Association.

How can I register?

THE TOUR IS FREE but, Please register here:
